## **Description:**

**From Publishers Weekly** "Life," Darvas writes, is "the history of individual tragedies" not such a surprising sentiment from an author who first witnessed a murder at the age of six. In this engaging memoir, she relates in modest terms what can only be described as an extraordinary narrative of wartime survival.

**From Library Journal** Another entrant in the growing collection of Holocaust memoirs, Darvas, the daughter of a Jewish father and German mother, shares her story of survival during World War II. Her family escaped the Nazi terror in Berlin to resettle in Prague. Yet the Nazis followed six years

later, and Darvas's family sent her away in the hope that she would escape. After a lonely and harrowing journey through the mountains of Czechoslovakia and Poland, Darvas, then 12 years old, wound up on one of the Kindertransports to Britain. Although she was shuttled between foster homes and boarding schools, she struggled to keep her sense of self and family alive during this tumultuous time and lived to see the end of the war. She immigrated to America and, after joining the U.S. Army as an adult, was once again able to visit Prague and learn of her family's destruction. Darvas's well-written and moving tale is a worthwhile addition to this genre. Recommended for larger public libraries and specialized Holocaust collections. Jill Jaracz, MLIS, Chicago
